Web Developer, AVM Solutions

June 2024 - Present

Responsibilities

- WordPress Development
 - Developed and maintained responsive websites using WordPress, focusing on user-friendly designs with Elementor.
 - Customized Elementor templates to create visually appealing layouts, ensuring alignment with client branding and requirements.
 - Managed content updates and site maintenance, utilizing Elementor's live editing features for real-time modifications.
 - Implemented SEO best practices within WordPress to enhance site visibility and improve search engine rankings.
- React Development (Next.js Framework)
 - Built static websites using Next.js, leveraging its capabilities for server-side rendering (SSR) and static site generation (SSG) to optimize performance.
 - Developed reusable React components to ensure modularity and maintainability across projects.
 - Managed routing and navigation within Next.js applications, creating dynamic routes for enhanced user experiences.
 - Integrated RESTful APIs to fetch data seamlessly, enhancing functionality and interactivity of the static sites.
